follo	This is to certify that I have examined the wing limitations and conditions:	he foregoing application, and	do hereby grant the same, subject to the		
source as heretofore granted under Permit 47615 is issued subject to the terms and conditions imposed in said Permit 47615 and with the understanding that no other rights on the source will be affected by the change proposed herein. The well shall be equipped with a 2-inch opening and a totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to beneficial use. The totalizing meter must be installed before any use of the water begins or before the proof of completion of work is filed. If the well is flowing, a valve must be installed and maintained to prevent waste. This source is located within an area designated by the State Engineer pursuant to NRS 534.030. The State retains the right to regulate the use of the water herein granted at any and all times. This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands. The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies. The total combined duty of water under Permits 29433, 39110, 47617, 49060, 49422, 49423 and 49595 shall not exceed 4,335.0 acre-feet annually. This permit is issued under the provisions of NRS 534.120(2) as a preferred use. (CONTINUED ON PAGE 2) The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not					
to exceed but not to exceed 1,445.0					
	acre-feet as decreed.

(PERMIT TERMS CONTINUED)

This permit is issued in accordance with State Engineers Ruling #3573 dated January 26, 1989.

If this permit is cancelled or withdrawn, the right under this permit shall

revert back to the ground water source and not the base right.

A quarterly report shall be submitted to the State Engineer within 15 days after the end of each calendar quarter. This report shall be done in accordance with the method specified in the monitoring plan approved by the State Engineer on April 1, 1996
